

# Legacy System Upgrades

## Our Knowledge

- ◆ **Equipment:** PLCs, AC and DC drives, HMIs, proprietary networks, and motion control systems
- ◆ **Brands:** ABB, Allen-Bradley, GE, Reliance, Siemens, SSD, and more

## Why Choose PCT?

- ◆ Who best to upgrade 30-year-old equipment than the company that installed it?
- ◆ PCT has in-house electrical/mechanical engineering as well as electrical/mechanical design to fulfill all your upgrade needs.
- ◆ We have the software/hardware from the previous century to support your equipment.

For over 30 years, PCT has been a leader in providing innovative automated solutions to industrial clients around the world. Let our legacy of ingenuity and experience work for your legacy machinery. Whether your equipment needs to be upgraded or simply supported, PCT is committed to working with our customers to find the right solution for reducing the risk of obsolete equipment.

With a wealth of experience in the metals, films, and custom automation industries, PCT understands our customers' processes. Want to upgrade a single drive? We can do that. Want to improve process performance while retiring legacy equipment? We can do that, too.

Mechanical and electrical engineering in one firm

An average of 15 years' experience per resource

Specialize in custom machines and processes
